

Isaac Urman

Junior Year Student of Computer Science and Data Science

Objective: Seeking a Software Engineering Internship for Summer 2023 to apply and further my skills while pursuing my current degree.

EXPERIENCE

SuperLogics Inc., Natick, MA — *Computer Assembly Tech I* JUNE 2022 - PRESENT

Assembling a wide range of high-performance server and desktop computers.

- Installing OS and versions of RAID on both Windows and Linux.
- Creating, installing, testing, and deploying images for customer use.
- Documentation of instructions on how to assemble specific builds for future employees.
- Collaboration with other team members to build large orders for companies to ensure production deadlines are met.

Denneno's Pizza, Stoughton, MA — *Food Prepper & Counter Help* JANUARY 2020 - FEBRUARY 2021

Worked 20 to 40 hours a week preparing food and ingredients, cleaning, as well as stocked food items.

- Took orders from customers over the phone in a quick and responsive manner.
- Worked with team members to ensure that the restaurant was properly closed for the opening shift the next day.

EDUCATION

Wentworth Institute of Technology, Boston, MA — *Bachelor in Computer Science | Minor in Data Science* SEPTEMBER 2021 - PRESENT

Current student at Wentworth Institute of Technology pursuing an accelerated program to achieve a Bachelor's in Computer Science with a Minor in Data Science over a period of 3 years.

Stoughton High School, Stoughton, MA — *Diploma* SEPTEMBER 2017 - MAY 2021

Graduated High School with a GPA of 3.89. Section leader of the School Marching Band and a member of the National Honor Society.

PROJECTS

LAP — *Health and Fitness App*

Working on a new Health and Fitness App that integrates with a Linux WatchOS called AsteroidOS in a Software Engineering Class.
